

NURS354 Nursng Student Self Reflection Form

SPP Experience Title: 354 Psychiatric Interview

Date/ Time: _____ Name of Learner: _____

Directions: Take a few minutes after the simulation to reflect on the experience. After you have filled out this form you will meet with the “patient” for feedback. Please be sure to fill out your post simulation paperwork before leaving.

Self reflection:

What parts of the simulation did I do well?

What areas of this experience do I need to improve?

Reflecting on the simulation objectives (listed below), which ones did I accomplish?

Which of the objectives need continued work?

If offered the chance to redo this, would you chose to do this another time?

Simulation objectives for NURS354 Psychiatric Interview

At the conclusion of the simulation the student will:

1. Develop confidence interviewing patients with underlying psychiatric illness.
2. Create a therapeutic environment where the patient is comfortable to share their experiences.
3. Apply didactic (classroom) content to simulated patient experience.
4. Select follow up questions appropriate for context of interview.
5. Organize questions within interview to facilitate a logical conclusion.

As the healthcare provider I::	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
Made good eye contact with the patient.					
Utilized appropriate use of touch with interactions.					
Had appropriate non-verbal communication skills.					
Appeared engaged in the experience.					
Verbally explained things well using basic terms.					
Made the patient/family feel comfortable.					
Made the patient/family feel safe.					
Made the patient/family feel as though the health care provider was competent to care for the patient.					
Made the patient/family feel respected.
