

Avtrach

SSH 2015 1st Place award winner in 'New Technology and Innovation'

Avtrach™ has been specially crafted by a Healthcare Educator, for Healthcare Educators. Its award winning design will quickly become a staple in your curriculum because it develops skills mastery and critical thinking for all levels of learners in the healthcare industry. Avtrach focuses on all types of respiratory care and management.

- Limitless respiratory care learning opportunities: asthma, heart failure, respiratory distress, mucus plug, displaced trach, pneumonia...
- Learning translates seamlessly to bedside care.
- Built to grow with your skills and simulation program

Avkin Antimicrobial Simulated

- Sensor system with haptic feedback to the wearer for simulation authenticity.
- (4) Independently Controlled Lung Sounds (free iPhone/Android app)
- Improved longevity with stain free SmartSkin™
